

What's New at Wilderness Rendezvous (WR) in 2018

Just in change in policy re hauling gear into camp. Each group gets one vehicle load of group camp equipment into a location near their campsite. The youth still required to carry personal gear from parking lot to campsite, so pack accordingly folks

Re: youth & scouter registration information - each group attending can go into MyScouts, go into troop, click on Quick Reports. This will produce Member Details Report. This is printable and shows each individuals information. Have Parents/Scouters initial after any corrections or changes.

Please make sure the Medical Information is updated on Participant Form (Scouts Canada) for all youth and adults, our First Aiders need current information.

If the parents or Leaders have any concerns re medical and or dietary needs and concerns. Please contact our Admin people and we can set up a call with Medical staff and or Quartermaster

For more information and forms

The old and new scouters at WR are trying to make technology work for us and are implementing it into our activities. As things happen i.e. meetings and of course during camp (hopefully we can have an update each day on both Facebook as well as Twitter.
